EXPERT ADVISORY

EXPERT WITNESS SERVICES

Our team comprise expert witnesses with experience of being cross examined in litigation, arbitration, adjudication and before Dispute Boards.

Disputes requiring technical expertise often involve an elaborate technical matrix of fact and opinion. Complex investigations, interrogation and interpretation of the cause and impact of various competing causes are required.

We will deliver concise reports that explain complex technical interactions in a clear and unambiguous manner.

DISCIPLINES INCLUDE:

Quantum
Delay Analysis
Architecture
Building Services
Civil and Structural Engineering
Construction and Engineering
Contract Administration
Mechanical and Electrical Engineering
Project Management

We are happy to provide an independent view on the merits of any potential action and of any remedial works proposed or already undertaken.

OUR EXPERTS COMPLY WITH A SET OF STRICT CRITERIA:

A minimum of 25 years' industry experience;
They have cross examination experience;
They have been trained in the expert's duties in both Litigation and Arbitration and hold third party expert witness accreditation.
